User Manual

in the box

1 MoodoGo Device

1 USB Power Cable

step 1

Remove volume ring from the device.

step 2

Insert the scent capsule into the volume ring.

When inserting the scent capsule (as shown above), **do not apply pressure.**

step 3

Insert the volume ring and capsule into your MoodoGo device.

In order to switch on the device, turn the volume ring clock-wise. An LED will indicate that the device is on.

Increasing the scent intensity is done by turning the volume ring clock-wise.

Decreasing is done by turning it counter clock-wise.
